

KUSHAGRA AGGARWAL

Boston, MA 02130 • (781) 510-1962

kushagrarenukaagggarwal@gmail.com • [LinkedIn](#) • [Github](#)

Available: June- December 2026

EDUCATION

Northeastern University, Boston, MA

Jan 2025 - Present

Khoury College of Computer Sciences

Expected Graduation: May 2027

Candidate for Master of Science in Data Science

ABESEC, Ghaziabad, UP, India

Aug 2019 - May 2023

Bachelor of Technology in Computer Science

TECHNICAL KNOWLEDGE

Languages: Python, R, SQL, PySpark

Machine Learning: Random Forest, XGBoost, SVM, K-Means, DQN/PPO, Feature Engineering, Model Evaluation

NLP & LLMs: Transformers, RAG, LangChain, OpenAI APIs, Prompt Engineering, Vector DBs, Fine-tuning (LoRA)

Cloud & Tools: AWS, GCP, Azure, Snowflake, Databricks, PyTorch, TensorFlow, Power BI, Tableau, Git

Certifications: **AWS Certified Data Engineer Associate**

Oct 2025 - Oct 2028

PROFESSIONAL EXPERIENCE

Questwalk Technologies Pvt Ltd, India

Nov 2023 - Nov 2024

Data Scientist

- Developed predictive ML models in Python using Random Forest and XGBoost, lifting F1 scores by 18% via tuning.
- Analyzed 1M+ row datasets with pandas and NumPy, surfacing patterns that improved model accuracy by 22%.
- Built Power BI dashboards on Snowflake delivering real-time KPIs, cutting ad-hoc reporting requests by 30%.

Techminds IT Services Pvt Ltd, India

May 2022 - July 2023

Data Analyst Intern

- Built predictive forecasting and segmentation models in Python and R, raising forecast accuracy by 20% over baseline.
- Automated Excel reporting with Python workflows, slashing turnaround time by 65% while improving accuracy.
- Implemented Power BI dashboards on Snowflake, enabling real-time monitoring of 12 business KPIs across teams.

Stanvac System, India

Jan 2021 - Feb 2022

Data Analyst Intern

- Cleaned and validated datasets using Python and SQL, achieving 99% data accuracy across reporting pipelines.
- Identified performance irregularities through trend and variance analysis for leadership decision-making.
- Visualized findings through Excel and Matplotlib, communicating insights across 5 business functions.

ACADEMIC PROJECTS

Healthcare Question Answering with Large Language Models

Sept 2025 - Dec 2025

Northeastern University, Boston, MA

- Architected an end-to-end LLM Q&A system with transformer models and RAG, achieving 92% retrieval relevance across 10K+ medical documents.
- Designed evaluation experiments measuring hallucination rates, reducing hallucinations by 40% through prompt iteration.

AI-Powered Adaptive Traffic Signal Control Using Reinforcement Learning

Jan 2026 - April 2026

Northeastern University, Boston, MA

- Designed a deep RL system comparing adaptive vs. static traffic policies, cutting average wait time by 38%.
